

Alert Bulletin

Bulletin N.: 2024-26
Publication Date: 06/09/2024
Subject: Alert 2024-26 Critical Vulnerabilities in Cisco Smart Licensing Utility Product
Traffic Light Protocol (TLP): White

The **Cisco team** has released security updates for two critical security flaws (**CVE-2024-20439** and **CVE-2024-20440**) that affect their **Smart Licensing Utility** product. These vulnerabilities could allow unauthenticated remote attackers to escalate their privileges or gain access to sensitive information.
