Alert Bulletin

Bulletin N.: 2024-24
Publication Date: 06/09/2024
Subject: Alert 2024-24 Critical RCE Vulnerability in Jenkins
Traffic Light Protocol (TLP): White

A critical vulnerability has been reported in **Jenkins**, a widely used tool for automating software development tasks, identified as **CVE-2024-43044** with a **CVSSv3 score of 8.8**. This vulnerability allows **Jenkins agents** to read arbitrary files from the controller.

A **Proof of Concept (PoC)** for this vulnerability has been published. The availability of a PoC significantly increases the risk of attacks on your company, as it makes it easier for attackers to exploit the flaw. Immediate action is required to mitigate the vulnerability, such as applying patches and reviewing security policies.
