

Alert Bulletin

Bulletin N.: 2024-29

Publication Date: 11/09/2024

Subject: Alert 2024-29 Critical Vulnerability in Kibana

Traffic Light Protocol (TLP): White

The **Elastic team** has published two critical vulnerabilities, identified as **CVE-2024-37288** and **CVE-2024-37285**, with CVSS scores of **9.9** and **9.3** respectively, affecting **Kibana versions 8.15.1 and earlier**. Both vulnerabilities allow for **remote code execution (RCE)**.

To resolve these vulnerabilities, it is recommended to update to **version 8.15.1**, which can be found at the following link: [**Kibana 8.15.1 Security Update**](#).
