Alert Bulletin

Bulletin N.: 2024-42
Publication Date: 27/09/2024
Subject: Alert 2024-42 Multiple Critical Vulnerabilities in the CUPS Library on Linux
Traffic Light Protocol (TLP): White

Affected Product(s):

- cups-browsed <= 2.0.1
- libcupsfilters <= 2.1b1
- libppd <= 2.1b1
- cups-filters <= 2.0.1

Description:

Several critical vulnerabilities have been identified in CUPS (Common UNIX Printing System), affecting various Linux versions, including all versions of Red Hat Enterprise Linux (RHEL), although not in its default configuration. These vulnerabilities allow for remote code execution (RCE) on vulnerable systems.
